With Sancuso, chemotherapy doesn’t have to cause nausea or vomiting.1

- One easy application provides up to 5 full days of continuous control of chemotherapy-induced nausea and vomiting (CINV).1
- Sancuso is the first and only patch approved for the prevention of CINV.1
- Sancuso provides an alternative to pills or shots to prevent nausea and vomiting caused by chemotherapy.1,2

Visit www.sancuso.com to learn more.

Sancuso is a skin patch that slowly releases the medicine contained in the adhesive (glue), through clean and intact skin areas into your bloodstream while you wear the patch. Sancuso is for skin use only.

Important Safety Information, continued

- Tell your healthcare provider about all the medicines you take, including prescription and non-prescription medicines, vitamins and herbal supplements. Other medicines may affect how Sancuso works. Sancuso may also affect how other medicines work.
- Do not apply any heat source over or near the Sancuso patch as it may increase your blood levels during the time of heat exposure.

Avoid sunlight. The medicine in Sancuso (granisetron) may not work as well and/or may affect your skin if exposed to direct sunlight or the light from sunlamps.

Avoid sunlight, continued

- Keep the patch covered with clothing if you will be in sunlight or near a sunlamp.
- Keep the skin where Sancuso was applied covered for another 10 days after the patch is taken off.

Sancuso can cause serious side effects:

- Using Sancuso may make it harder to identify certain stomach and bowel problems that are from other causes. Tell your healthcare provider if you have any stomach area (abdominal) pain or swelling while using Sancuso.
- Skin reactions. Tell your healthcare provider if you get any redness, rashes, bumps, blisters or itching at the patch application site, and especially if they spread or appear outside the patch application site. You may need to stop using Sancuso.

The most common side effect of Sancuso is constipation. These are not all the possible side effects of Sancuso. Tell your healthcare provider if you have any side effect that bothers you or that does not go away.

For more information, ask your healthcare provider or pharmacist.

To report suspected side effects, contact Kyowa Kirin, Inc. at 1-800-SANCUSO or FDA at 1-800-FDA-1088 or http://www.fda.gov/medwatch/1 www.fda.gov/medwatch.

The Sancuso® Patch
Price Guarantee
Attention Sancuso Patients With Commercial Insurance

You are eligible to pay only $20 per month for at least 1 Sancuso Patch*  

Here’s How:
Your Healthcare Provider prescribes the Sancuso Patch, a prescription medicine used to prevent nausea and vomiting.

Your Healthcare Provider will submit your prescription information to Patient Rx Solutions, called the “HUB” team at www.patientrxsolutions.com

LIVE SUPPORT
PHONE: 844-214-3442 | FAX: 844-214-3444

The HUB team will work with your Healthcare Provider and your commercial insurance to help you receive the greatest number of medically necessary Sancuso patches that you are eligible to receive for a $20 out-of-pocket cost.

Important Safety Information, continued
Tell your healthcare provider about all your medical conditions, including if you:
• Are allergic to medical adhesive tape, adhesive dressings or other skin patches.
• Have pain or swelling in your stomach area (abdomen).
• Are pregnant or plan to become pregnant. It is not known if Sancuso will harm your unborn baby.
• Are breast-feeding or plan to breastfeed. It is not known if Sancuso passes into your breast milk.

Sancuso® Patch
Price Guarantee

Available only through

patient Rx solutions

Whether it’s co-insurance, co-pay, high deductible, or some other limit, Patient Rx Solutions will work with insurers, prescribers, and you to provide access to the maximum number of medically necessary prescribed patches that you are eligible to receive for $20 out-of-pocket.

• The monthly benefit Kyowa Kirin pays will count towards your prescription commercial insurance deductible.

This offer is not valid for prescriptions under Medicare (including Medicare Advantage, Part A, B, and D Plans), Medicaid, VA, DOD, TRICARE, CHAMPUS, or other federal or state healthcare programs.

Kyowa Kirin will pay up to $530 dollars per month (after the patient pays the initial $20) for up to 4 patches per month and a yearly maximum benefit of $3,180. Kyowa Kirin, Inc., reserves the right to cancel or modify the program at any time. Unless otherwise indicated on submission form, Sancuso will be dispensed through select ASPN network pharmacy partners, available at participating pharmacies.

This offer is not valid for prescriptions in Massachusetts or in any other state that does not permit co-pay reimbursement consistent with this program. Offer expires January 31, 2018.
Sancuso is the first and only patch approved for the prevention of CINV.
